

COMPULSORY NOTIFIABLE ALLERGEN TABLE

Date of update: 16/10/2026
Version : 50 - BNL - EN

Information on notifiable allergens is produced in excess on the basis of our market sharing and information from our suppliers.
During the manufacturing stages, we cannot exclude the risk of accidental cross-contamination with other allergens.
Fried products can be cooked in the same fryers with frying oil.

Caption
Gluten* = Gluten (wheat/barley/rye/oats/kamut/spelt)
Nuts (almond/hazelnut/nut/cashew nut/Brazil nut/pecan nut/macadamia nut/pistachio)

As part of the O'Limited 5 "WESTAF" range, **PEANUTS**** are used in the preparation of this product (see page 2) and are processed on the same work surface as our other products. Control measures are in place to prevent cross-contamination. However, despite the care taken by our teams, we cannot rule out the possibility of cross-contamination or the accidental presence of traces of **PEANUT** allergens in any of our products.
